Grain 'String' Sales

These guides cover the particular requirements for dispatches or arrivals of grain to or from EU Member States where a 'string' sale is involved.

It has been produced in conjunction with the Agriculture and Horticulture Development Board (AHDB - formerly the Home Grown Cereals Authority) as a PDF document on the AHDB site, and is available at <https://ahdb.org.uk/cereals-oilseeds/intrastat-guides>

Please note that 'string' sales procedures may also be used with other commodities, e.g. beans. The same rules apply as for grain 'string' sales.
